Re: Proposed Decision on an application for a Historic Landfill Certificate of Authorisation.

I have considered the application, the Inspector's Report and draft Certificate of Authorisation in relation to the above referenced application.

I confirm that I have no Disclosure of Interest to declare in relation to this item

Decision

I approve the recommendation as submitted subject to the following changes:

<< Insert Changes >>

Amend Condition 3.1(c) to read:
(c) Install a low permeability landfill cap over the entire waste body, minimum 1m with 1mm thick low permeability geomembrane, or equivalent, to achieve a hydraulic conductivity of less than or equal to 1x10-9m/s;
The landfill cap shall be designed and installed in accordance with the EPA Landfill Manuals, unless otherwise approved by the Agency.
The landfill cap shall as a minimum incorporate the following elements:
(i) a gas drainage layer.
(ii) a water drainage layer ensuring that only uncontaminated surface water drained from the water drainage layer shall discharge to the adjacent surface water drains.
(iii) Reprofiled gradients to provide for rainwater run-off from the surface of the landfill.
The detailed design of the cap shall be submitted to the Agency one month prior to the commencement of installation.
Insert a new condition after the amended Condition 3.1(c) to read:
Drawings showing the "as built" elements and details of the landfill cap shall be submitted to the Agency within three months of the completion of works, unless otherwise approved by the Agency.
