EPA

Via email to t.sexton@epa.ie

Date 2nd January, 2023

REF: Acceptance of Incinerator Bottom Ash.

Dear Mr Sexton,

On behalf of Knockharley Landfill Limited (KLL) I seek the approval of the Agency to commence the acceptance of IBA from Dublin Waste to Energy under condition 3.43.4 of our licence. Acceptance under 3.43.4 will be on a temporary basis until the 10th of February, by which time cell 29 will be complete.

KLL operates under the conditions of Industrial Emissions Licence W0146-04.

We can confirm the following: -

- As KLL already accepts IBA from Indaver it has in place risk assessments and controls to manage IBA. We have been handling IBA from Indaver for over 5 years. From analysis and characterisation, we have determined that IBA from the combustion of MSW at Indaver and IBA from the combustion of MSW at DWE are extremely similar in terms of chemical and physical characteristics.
- The acceptance and storage of DWE IBA will be in accordance with the controls already in place to manage and store Indaver IBA.

I would be most grateful if you could confirm the EPA's approval of our above request at your earliest convenience. Should you have any queries, please do not hesitate to contact me at David.Tobin@Beauparc.ie.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'David M. Tobin', written in a cursive style.

David Tobin

For and on behalf of Knockharley Landfill limited, a subsidiary of Beauparc Utilities.
