Re: Greater Dublin Area Agglomeration (Ringsend) - D0034-02

Uisce Éireann wishes to submit the following unsolicited information for the Agency's consideration:

As previously identified in the updated Attachment C.1 of the Wastewater Discharge Licence Application, reg no. D0034- 02, there are 11 Stormwater Overflows discharging into the Grand Canal Dock Basin (via the Grand Canal Tunnel) at ING coordinates 317371E 233630N (as per Table 1 below). As part of the Grand Canal Stormwater Outfall Extension project, the existing Stormwater discharge point (above) will be rerouted from the Grand Canal Dock Basin to the Lower Liffey Estuary at ING coordinates 317451E 234291N (as per Table 2 below). It is anticipated that this extension project, comprising the construction of pipework and a new outfall will commence in 2025 and that the proposed new discharge location will be operational by 2028, with timeframes subject to change.

Please see table below relevant existing and proposed new SWO discharge location details. Updated overflow discharge location maps will be submitted to the Agency as soon as they are completed.

Yours sincerely,

Peter Keegan
Wastewater Strategy
