Reg. No.: P1179-01

Regulation 10(2)(b)(ii) of the EPA (Industrial Emissions) (Licensing) Regulations 2013, in respect of a licence application from Mr. Jerry McAuliffe for an installation located at Appletown, Feohanagh, County Limerick, V42 X389.

Dear Mr. Fay,

I refer to the application for a licence received by the EPA on 08 April 2022. Having examined the documentation submitted, I am to advise that the Agency is of the view that the documentation does not comply with the above-mentioned legislation. You are therefore requested, in accordance with the regulations, to supply the information detailed below.

1. The proposed red line boundary on the submitted site plan incorporates a part of the public road. Submit a site plan with a revised red line boundary which encompasses only the land within the control of the applicant.

The requested information should be submitted to the Agency within **10 days** of the date of this notice, in order to allow the Agency to process and determine your application.

It should be noted that the eight-week period within which the Agency is to decide the proposed determination will commence on the day on which this notice has been complied with. If you have any further queries, please contact licensing@epa.ie.

In the case where any drawings already submitted are subject to revision consequent on this request, a revised drawing should be prepared in each case. It is not sufficient to annotate the original drawing with a textual correction. Where such revised drawings are submitted, provide a list of drawing titles, drawing numbers and revision status, which correlates the revised drawings with the superseded versions.

Your response to this request is to be submitted via EDEN. Guidance on how to use this portal is available on the EPA website at [IE Licence application guidance | Environmental Protection Agency \(epa.ie\)](#).

Please direct any queries to licensing@epa.ie.

Yours faithfully,
