Mr. David Wynne
On behalf of Mr Michael Monagle

17 May 2024

Reg. No.: P0446-03

Further Notice under the EPA (Industrial Emissions) (Licensing) Regulations 2013, in respect of a licence review from Mr Michael Monagle for an installation located Annakisha North, Doneraile, County Cork, P51 EY43.

Dear Mr. Wynne,

I refer to the EPA's notice of 16 November 2023 requesting information in respect of your licence review application.

You are advised that there remains outstanding information, as required under the EPA (Industrial Emissions) (Licensing) Regulations 2013, as amended. You are therefore required to submit the outstanding information detailed below:

1. The submitted NIS does not address all of the European sites listed in the AA Screening Determination, issued by the Agency on 15 November 2023, which identified that these sites may be negatively impacted by emissions to air of ammonia (and associated nitrogen deposition) from the installation. Update the NIS accordingly.
2. Dietary crude protein
 - a. Identify the dietary crude protein concentrations to be fed by animal category (i.e. dry sows, farrowing sows, weaners, growers, finishers).
 - b. Where it is proposed that a weighted average within one of the above categories be used in the calculation of the dietary crude protein concentration, provide indicative numbers for the numbers of animals and crude protein concentrations used in the calculation of these weighted averages.
 - c. Indicate how compliance with the proposed crude protein concentrations (particularly the proposed weighted average concentrations) will be demonstrated to the Office of Environmental Enforcement.

With a view to advancing this application for determination, the above mentioned information should be submitted to the EPA within **four weeks** of the date of this notice.

It should be noted that failure to comply with this request may result in the EPA activating Regulation 19 of the EPA (Industrial Emissions) (Licensing) Regulation 2013 which pertains to Withdrawal or Abandonment of application for a licence. Have regard in particular to:

(2) Where the Agency is of the opinion that an application for a licence or review of a licence has been abandoned it may give to the applicant a notice stating that fact and requiring that person, within a period specified in the notice (being a period of not less than 14 or not more than 28 days beginning on the date of the giving of the notice), to make to the Agency a submission in writing as to why the application should not be regarded as having been abandoned.

(3) Where a notice has been given under paragraph (2), the Agency may, at any time after the expiration of the period specified in the notice, and after considering the submission (if any) made to the Agency pursuant to the notice, declare that the application to which the notice relates shall be regarded as having been abandoned.

Your prompt attention to this matter is requested.

Yours faithfully,

Philip Stack
