

# EPA Application Form

## 7.6.1 - Emissions to Ground and/or Landspreading Attachment

**Organisation Name: \***

**Application I.D.: \***

\* indicates required field

## 7.6 Emissions to Ground and/or Landspreading

### Disposal of Treated Sanitary Effluent via Percolation Area

Are there emissions to ground from the treatment of sanitary effluent?  **(Yes/No) \***

If 'Yes', complete and upload a report, in to the application form, that demonstrates compliance with the criteria set out in the *Code of Practice Wastewater Treatment and Disposal Systems Serving Single Houses (p.e < 10) or Wastewater treatment Manuals – treatment systems for small Communities, Business, leisure centres and Hotels*, published by the Agency. (Select Document Type: **Sanitary Effluent Compliance**).

**Sanitary Effluent Compliance** report file name:

### Landspreading of Manure

Is landspreading of manure associated with the activity? **(Yes/No) \***

If 'Yes' complete and upload the '**Landspreading Controls - Agri**' (Operational Report for the Management of Organic Fertiliser) template with information on the management of organic fertiliser (select 'Document Type: **Landspreading Controls Agri**').

**Landspreading Controls - Agri.** sector document file name:

### Landspreading of Non-Agricultural Organic Material

Is landspreading of non-agricultural organic material associated with this activity? **(Yes/No) \***

If 'Yes', complete and upload the '**Landspreading Controls - Non Agri**' template with information on the management of organic fertiliser (select 'Document Type: **Landspreading Controls - Non Agri**').

**Landspreading Controls - Non-Agri.** Sector document file name:

## Other Emissions to Ground

Are there any other aspects to the activity that may result in emissions to ground or groundwater such as landfill, lagoons, tailings ponds, contaminated land? **(Yes/No) \***

Yes

If **'Yes'**, upload a document in to the application form with full details of the emissions to and impacts on ground or groundwater. The document should also include details of all existing control measures - see note below. (Select the Document Type: **Emissions to Ground Controls'**).

Other **'Emissions to Ground Controls'** document file name:

Attachment-7-1-2 Emission to Ground-Waters Impact Assessment

Note: The **'Emissions to Ground'** upload should describe the existing or proposed arrangements necessary to give effect to Council Directive 2006/118/EC on the protection of groundwater against pollution and deterioration and Council Directive 80/68/EEC on the protection of groundwater against pollution by certain dangerous substances.

For emissions outside the BAT guidance limit, a full evaluation of the existing abatement/treatment system must be provided. A planned programme of improvement towards meeting upgraded standards is required. This should highlight specific goals and a time scale, together with options for modification, upgrading or replacement as required to bring the emissions within the limits as set out in the BAT guidance note(s).
