Mr. Ricky Roycroft  
On behalf of Enfield Broiler Breeders Limited

20 August 2024

Reg. No. P1214-01

**Re: Appropriate Assessment in respect of a licence application from Enfield Broiler Breeders Limited in respect of the installation located at Gorteen, Broadford, County Limerick, P56 VH76.**

Dear Mr. Roycroft,

I refer to your application for a licence application in respect of the installation located at Gorteen, Broadford, County Limerick, P56 VH76.

I am to advise you in accordance with Regulation 42(8)(a) of the European Communities (Birds and Natural Habitats) Regulations 2011 as amended, that the EPA has made a determination that an Appropriate Assessment is required as the project, individually or in combination with other plans or projects, *is* likely to have a significant effect on a European site(s). Notification of this determination is attached for your reference. Please note the EPA shall request a Natura Impact Statement in due course.

In carrying out an Appropriate Assessment the EPA shall take into account each of the matters specified in Regulation 42(12) of the European Communities (Birds and Habitats) Regulations 2011 as amended, where applicable.

The EPA shall publish a Notice for Public Consultation on Appropriate Assessment under Regulation 42 of the European Communities (Birds and Natural Habitats) Regulations 2011 as amended.

Submissions or observations on a licence application can be made to the Agency in relation to Appropriate Assessment as set out in the notice for public consultation.

The application and all associated correspondence including the notice for public consultation are available to view on the EPA website at [www.epa.ie](http://www.epa.ie). You are advised to refer to the website for information on the progress of the application.

If you have any further queries, please contact [licensing@epa.ie](mailto:licensing@epa.ie).

Yours Sincerely,

Philip Stack

## Appropriate Assessment Screening Determination

In accordance with Regulation 42(1) of the European Communities (Birds and Natural Habitats) Regulations 2011 as amended, the Agency has undertaken Appropriate Assessment screening to assess, in view of best scientific knowledge and the conservation objectives of the site, if the activity, individually or in combination with other plans or projects is likely to have a significant effect on a European Sites. In this context, particular attention was paid to the European Sites listed below.

### Consent Details:

<b>Reg. No.</b>	P1214-01
<b>Applicant Name:</b>	Enfield Broiler Breeders Limited
<b>Type of Consent Sought:</b>	IEL
<b>Location of installation:</b>	Gorteen, Broadford, Limerick, P56 VH76
<b>Licence Application Date:</b>	16 July 2024
<b>European Sites assessed:</b>	Lower River Shannon SAC (002165)
	Stack's to Mullaghareirk Mountains, West Limerick Hills and Mount Eagle SPA (004161)
	Askeaton Fen Complex SAC (002279)
	Barrigone SAC (000432)
	Blackwater River (Cork/Waterford) SAC (002170)
<b>Date of AA Screening Determination:</b>	20 August 2024

### AA Screening Determination:

That the activity is not directly connected with or necessary to the management of any European site and that it cannot be excluded, on the basis of objective information, that the activity individually or in combination with other plans or projects, will have a significant effect on any European site and accordingly determined that an Appropriate Assessment of the activity is required, and for this reason determined to require the applicant to submit a Natura Impact Statement.

This determination has been made in light of the following reasons:

- Air emissions of ammonia (and associated nitrogen deposition) from the installation have the potential for effects on qualifying interest habitats and species in the European Sites listed above due to their proximity to the installation.
- The Askeaton Fen Complex has Alkaline Fens [7230] listed as a qualifying interest in the Conservation Objectives documents for this European site, which is particularly sensitive to ammonia.

- Regard has been had to the EPA's Licence Application Guidance (Assessment of the Impact of Ammonia and Nitrogen on Natura 2000 Sites from Intensive Agriculture Installations, Version 2, March 2023) and the online screening tool SCAIL Agriculture (<http://www.scail.ceh.ac.uk>) as part of this Appropriate Assessment Screening Determination.
- Taking all of the foregoing into account it is considered that significant effects on European Sites and their qualifying interests due to emissions to air from the installation cannot be ruled out at the screening stage and based on the precautionary principle this determination is that a Stage 2 Appropriate Assessment is required.

Information in relation to European Sites is available on [www.npws.ie](http://www.npws.ie).

Documents relating to the licence application are available on the Agency's website at [www.epa.ie](http://www.epa.ie).
