Clerical or Technical Amendment Application Details

Proposed Alteration Description

Packaging Laundry Limited is seeking to amend the red-line licence boundary to facilitate the indoor storage of refurbished, ready for re-use, IBC containers in a newly acquired property that adjoins the existing facility. This will negate the requirement to store containers outdoors and will alleviate current space restrictions.

There will be no processing within the extended area (the space is required for temporary storage, pending collection), no new waste types are proposed and no new emission points will arise.

Condition 1.3 of the Licence refers to the current licensed area. It is proposed to amend this to reflect the extended area (see attached figure). The proposed alteration will not have an adverse impacts on human health or the environment but will facilitate more orderly temporary storage of clean containers.

The proposed boundary extension will not impact upon protected sites and AA Screening exercise associated with the application for W0304-01 remains valid.

Priority	3. Urgent
Category of Amendment	(c) Otherwise facilitating the operation of the licence (or certificate) and the making of the amendment does not result in the relevant requirements of section 83(5) of the EPA Act as amended/ section 42B(1) of the Waste Management Act as amended/environmental requirements ceasing to be satisfied

Questions

Q1	Is planning permission required to support the proposed alteration?	No
Q2	Does the application involve an installation boundary change?	Yes
If 'Yes', for a proposed site boundary reduction please attach an OEE Exit Audit Approval for the reduced boundary area. In the case of an installation boundary increase for an Industrial Emission Licenced activity, you are required to provide the reason that you consider a Baseline Report is not required. In the case of all boundary changes also provide an updated site boundary location map in accordance with Section B of the EPA Licence Application Form.		Bray, EPA waste license AUG-23 FIG-2-v4.pdf
Q3	Does the application involve changes to emissions to sewer?	No
