Re: PERMISSION for the construction of two poultry houses, two soiled water tanks and associated site works (this application relates to development which comprises or is for the purposes of an activity requiring an integrated pollution control licence. An environmental impact statement (EIS) has been submitted as part of the planning application)

Development Location: Coolanoran, Newcastle West, .

Planning Reference No: 12/245

Dear Sir/Madam,

I refer to your letter of 5th September, regarding the proposed change of operation of the poultry unit granted planning permission under planning reference 12/245. The proposed change of operation from a traditional intensive broiler rearing to a free range standard would not require a separate grant of permission. It is noted from a planning history search of the site that planning applicant 23/7005 for an extension of duration of planning permission 12/245 and 17/7012 was withdrawn. The applicant should satisfy themselves that the planning permission 12/245 has been complied with and if necessary the planning status of the site should be regularised.

Yours faithfully,

Aisling Casey

(for) Senior Planner,
Development Management.
