Mr. Paraic Fay

On behalf of Mr Michael Noel O'Connor

6<sup>th</sup> October 2025

Reg. No.: P1042-02

Regulation 10(2)(b)(ii) of the EPA (Industrial Emissions) (Licensing) Regulations 2013, in respect of a licence review from Mr Michael Noel O'Connor for an installation located at Rathcahill West, Templeglantine, Newcastle West, Co. Limerick.

Dear Mr. Fay,

I refer to the application for a licence received by the EPA on 27 March 2024.

Having examined the documentation submitted, I am to advise that the Agency is of the view that the documentation does not comply with the above mentioned legislation. You are therefore requested, in accordance with the regulations, to supply the information detailed below.

**REGULATION 9 COMPLIANCE REQUIREMENTS**

- As required by Regulation 9(2)(d) of the Environmental Protection Agency (Industrial Emissions) (Licensing) Regulations 2013, please provide written confirmation that final planning permission from the relevant planning authority has been granted.
- As required by Regulation 9(2)(d), please provide written evidence that the court appeal process has been completed.

In addition to the above, please also provide an updated non-technical summary (Application Form, and EIAR where applicable) to reflect the information provided in your reply, insofar as that information impinges on the non-technical summary.

The requested information should be submitted to the Agency within **4 months** of the date of this notice, in order to allow the Agency to process and determine your application.

It should be noted that the eight-week period within which the Agency is to decide the proposed determination will commence on the day on which this notice has been complied with. If you have any further queries please contact [licensing@epa.ie](mailto:licensing@epa.ie).

In the case where any drawings already submitted are subject to revision consequent on this request, a revised drawing should be prepared in each case. It is not sufficient to annotate the original drawing with a textual correction. Where such revised drawings are submitted, provide a list of drawing titles, drawing numbers and revision status, which correlates the revised drawings with the superseded versions.

Your response to this request is to be submitted via EDEN. Guidance on how to use this portal is available on the EPA website at [IE Licence application guidance | Environmental Protection Agency \(epa.ie\)](#).

Note that where the licensee fails to comply with this requirement in full and to the satisfaction of the Agency, the Agency may consider, having regard to the extent of the failure, whether the application can be considered pursuant to Regulation 10(2)(b)(ii)/Regulation 13(4)(b) of the Environmental Protection Agency (Industrial Emissions)(Licensing) Regulations 2013 as amended, and may issue a notice in writing that the application cannot be considered by the Agency, outlining the extent of such failure. Alternatively, where there is a failure to comply with this requirement the Agency may activate Regulation 19 of the EPA (Industrial Emissions)(Licensing) Regulation 2013, which pertains to Withdrawal or Abandonment of an application for licence.

Please direct any queries to [licensing@epa.ie](mailto:licensing@epa.ie).

Yours Sincerely,

Andrew McCabe
