RE: EPA Industrial Emissions License Application P1186-02 – Update on Response to Uisce Eireann RFI

Dear Sir/Madam,

On behalf of the applicant, Amazon Data Services Ireland Limited, I am writing to provide you with an update in relation to the RFI issued by Uisce Eireann.

We have issued our response to Uisce Eireann, providing them with the information they have requested and are awaiting their response. As you can appreciate, we cannot anticipate when this will be, and are mindful that the EPA deadline for us to respond is the 21 October 2025. We will provide their response as soon as it is available.

However, as outlined in our previous response (ref: 257501.0094L07, dated 6th October 2025), and as per the RFI response, there is no discharge to foul sewer other than domestic effluent and storm water. and therefore a S99E is not required.

Sincerely,

Mairead Rawal
Senior Consultant
AWN Consulting
