

EPA Application Form

7.6.1 - Emissions to Ground and/or Landspreading Attachment

Organisation Name: *

T O'Regan & Sons Unlimited Company

Application I.D.: *

7.6 Emissions to Ground and/or Landspreading

Disposal of Treated Sanitary Effluent via Percolation Area

Are there emissions to ground from the treatment of sanitary effluent?

Yes

(Yes/No) *

If 'Yes', complete and upload a report, in to the application form, that demonstrates compliance with the criteria set out in the *Code of Practice Wastewater Treatment and Disposal Systems Serving Single Houses (p.e < 10) or Wastewater treatment Manuals – treatment systems for small Communities, Business, leisure centres and Hotels*, published by the Agency. (Select Document Type: '**Sanitary Effluent Compliance**').

Sanitary Effluent Compliance' report file name:

Site Suitability Assessment

Landspreading of Manure

Is landspreading of manure associated with the activity? (Yes/No) *

If 'Yes' complete and upload the '**Landspreading Controls - Agri**' (Operational Report for the Management of Organic Fertiliser) template with information on the management of organic fertiliser (select 'Document Type: '**Landspreading Controls Agri**').

Landspreading Controls - Agri. sector document file name:

No spreading of organic fertiliser within installation boundary.

Landspreading of Non-Agricultural Organic Material

Is landspreading of non-agricultural organic material associated with this activity? (Yes/No) *

No

If 'Yes', complete and upload the '**Landspreading Controls - Non Agri**' template with information on the management of organic fertiliser (select 'Document Type: '**Landspreading Controls - Non Agri**').

Landspreading Controls - Non-Agri. Sector document file name:

Other Emissions to Ground

Are there any other aspects to the activity that may result in emissions to ground or groundwater such as landfill, lagoons, tailings ponds, contaminated land? **(Yes/No)** *

No

If **'Yes'**, upload a document in to the application form with full details of the emissions to and impacts on ground or groundwater. The document should also include details of all existing control measures - see note below. (Select the Document Type: **'Emissions to Ground Controls'**).

Other **'Emissions to Ground Controls'** document file name:

Note: The **'Emissions to Ground'** upload should describe the existing or proposed arrangements necessary to give effect to Council Directive 2006/118/EC on the protection of groundwater against pollution and deterioration and Council Directive 80/68/EEC on the protection of groundwater against pollution by certain dangerous substances.

For emissions outside the BAT guidance limit, a full evaluation of the existing abatement/treatment system must be provided. A planned programme of improvement towards meeting upgraded standards is required. This should highlight specific goals and a time scale, together with options for modification, upgrading or replacement as required to bring the emissions within the limits as set out in the BAT guidance note(s).
